- We picked an official name for our project - Achilles Rehabilitation Device.
- We created a shared emailed account.
 - This account will have all of our documents, reports, and presentations in addition to being a tool for communication.
- We began work on our group website.
 - The aesthetics of our website are not very nice right now, so we will go back and make the design neater.
- We scheduled another brainstorming session for Saturday morning.
- Eshan asked his team members if they have any ideas for a rehabilitation device.
